SUMMARY

Results-driven Full Stack MERN Developer skilled in building scalable, responsive web applications using React.js, Next.js, Node.js, Express.js, MongoDB, and MySQL. Strong foundation in RESTful APIs, TypeScript, Tailwind CSS, authentication systems, and Agile development. Known for exceptional attention to detail, problem-solving, and organizational skills, with excellent verbal communication and teamwork abilities. Dedicated to delivering high-quality, maintainable code and user-focused digital solutions.

EXPERIENCE

Web Development Intern

Khuda HafizOnsite

Jun 2025 - Aug 2025, Islamabad, Pakistan

- · Developed and optimized dynamic Next.js front-end, improving load speed by 20% and SEO ranking through SSR and structured metadata.
- $\cdot \ \, \text{Collaborated effectively with senior developers, demonstrating strong verbal communication and organizational skills in daily Agile sprints.}$
- · Delivered pixel-perfect, responsive UI components ensuring high user engagement and code consistency.

Full Stack Developer

Freelance Jan 2024- Present

- · Delivered 6+ full-stack web apps using the MERN stack (dashboards, utilities, business tools) with end-to-end deployment.
- · Applied analytical problem-solving skills to debug, optimize, and maintain scalable APIs.
- · Integrated Firebase/Auth.js authentication, reusable components, and Git-based workflows with strong attention to detail.

PROJECT

GetMeAChai

· Built a creator funding platform integrating Stripe payments, secure sessions, and responsive UI.

ZapLink

 $\cdot \ \, \text{Developed a URL shortener with instant link generation, data persistence, and mobile-first design.}$

Password Manager

• Engineered secure credential storage with bcrypt hashing, CRUD API, and React Toastify alerts.

Chatting App

 $\cdot \ \text{Designed authenticated real-time messaging with smooth UX and well-organized channel architecture.} \\$

EDUCATION

BS in Artificial Intelligence

Air University · Islamabad
